

TMC STATEMENT CONCERNING CORONAVIRUS (COVID-19)

Valued Customer,

We continue to closely monitor developments and the global impact with respect to the Coronavirus (COVID-19).

Our crisis management team has been monitoring the situation and taking steps to ensure the wellness and safety of our employees, while executing against our comprehensive business continuity plans and providing relevant, timely updates to our global network.

Our Control Towers remain fully operational around the globe, continuing to service all managed services and logistics needs while adhering to government and health regulations. TMC's global network and technology enable us to continue to support your supply chain operations worldwide. Our global Control Tower locations have business continuity plans and strategies in place to allow our employees to work remotely, should the need arise. Our global reach and technology position us to adjust operational support as needed to ensure uninterrupted service.

The safety of our employees and their families continues to be our utmost priority. We recognize this situation remains very fluid. Together with the C.H. Robinson team, we will continue to monitor the impacts to global and domestic operations daily and provide updates through [client advisories](#). You can subscribe to receive these advisories, and we will proactively share significant updates to keep you informed.

As an extension of your team, we remain committed to providing the global connectivity, service, and support that you can continue to rely on.
